

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re the Application of:	Attorney Docket No. 33559/US/2
Inventor: Paul G. Swiszc	Art Unit: 1794
Appl. No.: 10/582,187	Confirmation No. 4006
Filed: June 8, 2006	Examiner: Ula Corinna Ruddock
Title: Flexible Glass Fiber Weave	

RESPONSE TO EXAMINER TELEPHONE INTERVIEW JUNE 1, 2010

Mail Stop: RCE
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

In response to a telephone interview courteously granted by Examiner Ula Ruddock on June 1, 2010, applicant is filing herewith an RCE application with the claims to be considered those submitted in applicant's amendment before final dated September 15, 2009.

Further, the examiner wanted clarification of the disclosure in the reference to Christou et al. In response thereto, a Declaration is enclosed executed by one of the joint inventors in the Christou et al. application clarifying the fact that each embodiment of the product disclosed in the Christou et al. application includes holes therethrough thereby clarifying the fact that the Christou et al. product is not a product "without holes or discontinuities" as provided for in the claims of the present application.

It is felt that with the enclosed Declaration the relevance of the Christou et al. is clarified, and it was believed from the aforementioned telephone interview the examiner

concluded that with a Declaration of the type submitted herewith, the Christou reference would not be applicable pursuant to her earlier rejection of the application.

The examiner felt a further search would be necessary, however, and for that reason the RCE is being filed pursuant to the above.

.Dated this 3rd day of June 2010.

Respectfully submitted,

Gary M. Plumbus, Reg. No. 25,364
